# of Bedrooms \_\_\_\_\_ # of Bathtubs greater than 125 gallons: \_\_\_\_\_

Bedroom as defined is; any room that could be occupied for sleeping, having seventy (70) square feet or more, at least one (1) operable window or exterior door &amp; for new construction, a closet.

Do you plan to install a grinder pump or a sewage ejector pump, if so, which one? \_\_\_\_\_

Proposed Water Supply: ☐ Well\*\*\* ☐ Municipal ☐ Other \_\_\_\_\_

\*\*\*As per Johnson County Code Chapter 102 Subdivision Control Ordinance Sec. 6-102-5 E—A well log from a certified well driller must be provided for each proposed lot prior to septic permit approval.

It is critical that the owner be aware of the cost of pumping the tank(s) on a regular basis. They may wish to speak with a septage management service prior to making the final decision. They also need to be advised about the potential frequency of pumpings. Holding tanks can need to be pumped as frequently as weekly or more. The frequency of pumping is directly related to the size of the holding tank(s) and the water use in the home or commercial building. If there is no possibility of ever installing an on-site sewage system or connection to sewer, the holding tank will be the only option for sewage disposal for the home or commercial site. If the owner decides it is too expensive and/or they decide not to pump the tank as needed, the LHD may suspend, revoke, or deny renewal of the holding tank operating permit. If the tank is not being pumped as needed, there really is no other option for the owner other than to vacate the property or choose not to utilize water in the structure. Any real estate disclosure should indicate the status of the sewage disposal at the site. This has the potential to affect property values.

Prior to issuance of the holding tank permit, the owner shall record this permit &amp; operating permit onto the properties deed.

Written contract a licensed septage hauler must be provided prior to issuance of the permit- attach

By signing below you agree to provide this department with copies of all receipts and other records for the holding tank, agree to disclose this condition to buyers of the property prior to closing and acknowledge all of the above.
